About the KHS Scholarship Center

The KHS Scholarship Center exists to help students seek out and apply for scholarships. While this is ultimately the student's responsibility, Counseling Office personnel have established a system of helping alert students to current scholarships available.

The success of the Scholarship Center is based largely on the quality and accuracy of the information students give on their **Student Profile Form**. Students will fill out this form in September of their senior year. This form will be found online as a link on the KHS Scholarship page. It is very helpful if students update this form as they narrow down their career and college choices. It is also very helpful if parents make their children aware of any key information such as their military service or membership in local and national organizations. These profiles are helpful in matching students with scholarships that have specific eligibility requirements. Many scholarships, however, have minimal eligibility requirements so students will not always be notified of a scholarship match due to the high number of students who qualify.

Scholarships are posted on KHS daily announcements, the bulletin board in the hallway, and the **Scholarship Website**. A link to this website is found at the top of the Kingsford High School webpage or by going to http://www.kingsford.org/khsWeb/counseling_office/default.php. Scholarship opportunities will begin being posted on this website beginning in September and then weekly throughout the school year as the due dates near. If the instructions are to bring your application to the Scholarship Center, please follow the due dates on the scholarship website, not the application form. This will ensure ample time for the Scholarship Center to process and mail your application. It is important that students check this website weekly for new scholarship opportunities. The majority of the applications can be accessed on this website and will be able to be completed online. Please type whenever possible. I will be happy to review your application; however, you will need to get the application to me at least a week before the due date.

Students will need a least two **letters of recommendation** to begin applying for most scholarships. One should be from a teacher, and one should be from someone outside of school that is not a relative. Please ask for these letters well in advance. September would be a good goal. Please provide the person you are requesting a letter from a list of your activities and honors so he/she can incorporate this information into the letter. You may use your activity sheet for this purpose. <http://khsscholarships.weebly.com/scholarship-application-activities-sheet.html>. A link to the activity sheet can also be found on the Counseling Office webpage and will also be emailed to you at the beginning of the school year. If letters of recommendation are written in such a way that they can be used for any application, they can be kept on file in the Counseling Office and included with any future applications.

ACT and SAT scores are often a determining factor for scholarship committees. You may want to consider retaking the ACT or SAT test if you think you can improve your score. The Counseling Office has prep materials for you to check out and use in preparing for a retake.

Many scholarship applications require an updated **transcript**. Students can request transcripts through **Parchment**. A link to this is found at the top of the KHS webpage. Students are responsible for printing their own transcripts unless the application requests an "official" transcript. You can then request that the Counseling Office print an official transcript for you.

Most scholarships require a written **essay**. While the topics may vary, once you have done two or three scholarship essays, you will begin to find it easy to use information from these essays to create a new one. These essays are very important and can be a determining factor in winning a scholarship. It is vital that you do your very best on these essays. Please have someone proofread your essay and give you feedback.

This guide includes descriptions of KHS and local scholarships and some additional scholarships of interest. This is not a comprehensive list of all the scholarships that will be posted. There are many more. Check the scholarship website weekly for these and other scholarship opportunities. Additional scholarships will become available throughout the school year and are not listed in this booklet. Students should be checking the scholarship website weekly.

The information provided in this guide may change from year to year. Eligibility requirements, due dates, and scholarship totals can vary from year to year.

The following website is a link to the Michigan Office of Scholarships and Grants handbook. It contains some useful information.

http://www.michigan.gov/documents/mistudentaid/SSG_Guidebook_450336_7.pdf

Please bring any college or scholarship award letters that you receive to the Counseling Office. You will be recognized for these awards at our **Scholarship Banquet** that is held in May. It is at this banquet that you will learn what scholarships you may have won, so don't be discouraged if you don't hear anything earlier.

KHS UNIVERSAL SCHOLARSHIPS

These are scholarships available to KHS seniors only. Students will fill out one application form for all of the scholarships in which they are eligible. Two references are required. They will be posted in **January** and are due the first week in **March**. Additional scholarships may become available. Scholarship amounts may vary from year to year. The following scholarships are part of the KHS Universal Application:

Alumni and Friends of KHS Scholarship (varies)
